LeadAIO

Launch your brand into AI answers.

We get mid-market brands named and cited when buyers ask ChatGPT, Perplexity, Gemini and Google AI Overviews who to choose.

THE SHIFT

AI search isn't coming. It's already here.

34.5%

Fewer clicks on the #1 result when an AI Overview appears

Source: Ahrefs, 2025 · 300,000 keywords

58.5%

of US Google searches end without a click to the open web

Source: SparkToro & Datos, 2024

61%

Drop in organic CTR on informational queries with an AI Overview

Source: Seer Interactive, 2025

THE SHIFT IS HERE

Search used to be a list. Now it is an answer.

THEN

- Search: ten blue links.
- Endless scrolling.
- You search. You sift. You hope.

NOW

- AI answers.
- Clear insights.
- Instant recommendations.

AI is the new front door to your business.

> If you are not optimized for AI, you are invisible to the next generation of buyers.

WHAT WE DO

SEO wins the click. AIO wins the sentence.

	CLASSIC SEO	AIO WITH LEADAIO
THE GOAL	Rank a page in ten blue links	**Be named, and cited, inside the answer**
WHERE THE WORK HAPPENS	Your own website	**The signals and sources AI engines trust**
THE UNIT OF SUCCESS	Position for a keyword	**Named and cited, per prompt, per engine**
WHAT THE BUYER SEES	Your link among rivals' links	**Your name in the recommendation itself**
HOW IT IS MEASURED	Rankings and organic traffic	**Share of prompts, citations and the source behind each answer**

A COMPLETE AI VISIBILITY STRATEGY

AIO / GEO / AEO

AIO

AI Optimization

Optimizing your business to be recommended by AI-powered platforms: building the signals that make AI engines trust you and cite you as the authority.

GEO

Generative Engine Optimization

Structuring content for generative AI outputs, so your expertise is synthesised and presented in AI-generated responses.

AEO

Answer Engine Optimization

Positioning your business as the definitive answer across AI assistants. When users ask, you are the recommendation, not your competitor.

Together, they form one complete AI visibility strategy.

HOW IT WORKS

From audit to category leader.

No black box. Four stages, and you approve the plan before anything goes live.

01

Discovery & AI audit

Days 1–7

A full AI visibility assessment, competitor landscape analysis and opportunity mapping.

02

Strategy & architecture

Days 8–14

A custom AI optimization blueprint, content architecture and entity authority roadmap.

03

Launch & optimize

Days 15–30

Implementation goes live: AI signals deployed, with rapid iteration based on how each platform responds.

04

Scale & lead

Month 2 onward

Continuous AI authority building, reviewed with you every quarter, to hold your place as the category leader.

HOW IT WORKS

Six disciplines behind every recommendation.

01

Entity authority building

Establish your business as a recognised, authoritative entity across AI knowledge systems.

02

AI trust signal optimization

Strengthen the digital signals AI platforms use to judge credibility and relevance.

03

Structured content intelligence

Architect content so AI systems can accurately parse, understand and cite your expertise.

04

Citation network development

Build authoritative citation pathways that AI models reference when they generate answers.

05

Knowledge graph positioning

Position your business inside the knowledge graphs that power AI recommendations.

06

Semantic relationship mapping

Define and reinforce the connections between your brand and your key service categories.

COMPLETE AI ECOSYSTEM COVERAGE

Platforms we optimize for.

THE ENTRY OFFER

Your AI Visibility Score.

Your baseline: how often AI engines name your brand when buyers ask about your category, and who they name instead.

SIX READINGS, ONE BASELINE

01 How often you are named across buyer prompts

02 Where you appear: first, in the list, or missing

03 Your position on each engine, side by side

04 Who AI names instead of you

05 The sources AI cites in your category

06 How accurately AI describes your brand

HOW YOU GET IT

01 **Request it**
Fill in the short form with your name, company and website.

02 **We run your prompts**
We build the questions buyers ask in your category and run them on each engine.

03 **We score the answers**
How often and how prominently you are named, who is named instead, and what each engine cites.

04 **We walk you through it**
In a consultation, with the next steps if you want them. Either way, the baseline is yours.

WHO WE SERVE

Built for mid-market brands.

Everyone at the table cares about AI answers for a different reason.

01

CEOs and founders

You want to know whether AI recommends you or a competitor. You get a straight answer, a plan, and a quarterly review that shows progress in plain terms.

02

CMOs and VPs of marketing

Your buyers research with AI before they talk to you. We get your brand onto the shortlist AI writes, with reporting you can take to the board.

03

Growth and demand leaders

Pipeline quality matters more than traffic. We focus on the buyer questions that decide who gets the call.

04

SEO and content leads

Rankings are steady, but AI answers name your rivals. We add the entity, structure and citation work that complements your SEO.

05

Brand and communications

AI now tells your story to buyers. We make sure every engine describes you accurately and consistently.

06

Sales leaders

Prospects arrive having already asked AI about you. We make sure what they heard is right, and that you were in it.

NO BLACK BOX

What you see along the way.

01

Your AI Visibility Score

The baseline we start from: where AI names you today, and who it names instead.

02

The blueprint

Your AI optimization plan, content architecture and entity roadmap, approved by you before anything goes live.

03

Visibility reporting

Named and cited, per engine and per buyer prompt, against your baseline.

04

What moved it

The work behind each change, so you know what is working and why.

05

Quarterly business reviews

A QBR with your team every quarter: results, what moved them, and the plan for the next quarter.

06

The plan ahead

The prompts and engines we target next, and the work behind them.

ABOUT LEADAIO

HOW WE WORK

Show the mechanism

We explain what we do and what moved each answer. That is why our method is on this site.

Measure per engine, per prompt

Each engine answers differently, so we track each one on the questions your buyers really ask.

Earn every citation

Accurate facts, real expertise and well-structured content. Useful beats clever, and it lasts.

Review it together

We run quarterly business reviews (QBRs) with your team: results, what moved them, and the next quarter's plan.

WHY LEADAIO

The LeadAIO difference.

AI-first, not legacy-first

Every strategy designed around AI platforms from the ground up.

Senior strategists

Experienced professionals lead every engagement, not junior automation.

Strategy-led, not tool-led

A custom strategy for your market, never a templated playbook.

Transparent reporting

Clear reporting, and quarterly business reviews with your team.

Built for the AI era

Focused only on AI-driven visibility. This is all we do.

NEXT STEP

Book a Consultation.

We will look at how AI engines describe your brand today, and what it would take to be named first. Or start with your AI Visibility Score.
